week in Moline, East Moline, Rock Island and
Waterloo.

MUNICIPAL HOME FOR EAST MOLINE

Question of New Building May Be Sub-
mitted to Vote of People in
the Spring.

East Moline has undergone no trans-
action in which a new municipal building is
transacted, and there is no indication
that the city council will act at an
early date after consideration of the
position of submitting to a vote of
the people in the spring the question
of a new municipal building. At present
the city's affairs are handled in a
half dozen places. The city offices are
located occupying a large room upstairs
in an old building, the police and fire
departments occupying a building that
is not adequate and is in need of re-
pairs, the engineer having separate
offices, the city attorney maintaining
only his private office, the police main-
taining occupying a private office else-
where, and the mayor having only his
own professional office. The council
chamber is in a room just back of the
clerk's office. Files and records of
the city are not provided in suitable
places for storage, but are stored
in the basement in an old dirty cell in
police headquarters.

Police headquarters are too small
and the building is in need of com-
plete reconstruction, but the damage
so bad that they expect to have it
done in the floor of the city's form-
ality without any injury resulting.

Plan to be suggested to the council,
it is said, calls for concentration of
city offices and construction of a
modern building with adequate facil-
ties for the city's business. Every city
department feels the need of new
quarters. If the project is submitted
to a vote, it is predicted it will carry
by a large majority.

BORNHOEFT ENLISTS IN CAVALRY BRANCH

Louis Bornhoeft has notified the
Moline Armored Train that he has
enlisted in this United States cavalry
army with rank of lance corporal
in St. Louis to receive training.
He was subject to draft in the
national army.

THREATENS TO SHOOT.
George Hunt, an attorney here, before Magistrate A. A. Stiles in East Moline police court today on charges of disorderly conduct and were fined \$2 and costs, \$50 on it. Then he threatened a neighbor but nothing more than words of abuse. There was plenty of intoxicating beverage for the guests. During the exciting discussion as to obligations of children to their parents arms and George and his wife did not comment in their views. George ordered his wife to go home immediately with him and when she indicated that she would not finish her remarks about mothers and her own in particular, George said, he would use force. He had a gun in his pocket and his wife turned this from his coat. Police were then called. George was not prosecuted on the charge of carrying concealed weapons, but it was made clear to him that if he tried to shoot a serious offense and would not tolerate it in East Moline. Incidentally the defendants made themselves liable for prosecution under the fourth law, for they took their two children into a house and played cards for money. Mrs. Hunt and George did not set the moles skin off the house till she left.

BUCK NAMED LIEUTENANT.
George B. Buck, 615 Nineteenth street, Moline, has been appointed a delegate from St. George Lodge No. 25 to the Knights of Pythias district convention at Kewanee, Nov. 19.

East Moline Society

Woman's Health Association of the
Methodist church will sponsor a
social gathering Friday evening to
which they invite all members and
their families.

LAWYER'S 500 members of Blackstone
Methodist entertained at a dinner at
the Halloran's social rooms after
noon in the church parlor for the
congregation. A program had been
arranged by which there was a series
of speakers and lectures by the president
of the association. The program was
arranged so well that it was hard to
establish the identity of most lead-
ership. Many prominent persons
were pleased with the talk and
after the speakers had been invited the
auditors engaged with even more
interest about the actual problems.

Mr. Arthur McMillan says his
yesterday afternoon to the Hills. They
say when all members were present
and a small delightful time was spent
with some merriment. The group
presented the hostess with a wood-
burned basket full of dried fruit.
According to the story of the guard
the gates were down and had been
open for half an hour when the truck
approached. The driver insisted that
he was in a hurry and wanted them
to let him through. The guard opened
the gates and the machine was driven
directly in the path of the train. The
truck was hit and demolished. The
men sustained serious injuries and were
brought to their homes.

The Twenty-fifth street crossing is
one of the most dangerous in Moline
there being 47 sets of tracks at the
intersection.

Mrs. A. DeSchaefer will entertain
her evening club members at
an old building, the offices and
departments of buying a building that
is not adequate and is in need of re-
pairs, the engineer having separate
offices, the city attorney maintaining
only his private office, the police main-
taining occupying a private office else-
where, and the mayor having only his
own professional office. The council
chamber is in a room just back of the
clerk's office. Files and records of
the city are not provided in suitable
places for storage, but are stored
in the basement in an old dirty cell in
police headquarters.

Police headquarters are too small
and the building is in need of com-
plete reconstruction, but the damage
so bad that they expect to have it
done in the floor of the city's form-
ality without any injury resulting.

Plan to be suggested to the council,
it is said, calls for concentration of
city offices and construction of a
modern building with adequate facil-
ties for the city's business. Every city
department feels the need of new
quarters. If the project is submitted
to a vote, it is predicted it will carry
by a large majority.
